According to the data submitted, no serious risks or delays seem to be noticed. This finding is also documented by the limited number of twenty (20) actions, for which the competent implementing bodies have submitted a modification or an update request. The majority of those requests mainly concern the update of the implementation timeframe.

In more detail:

- Nine (9) requests are related to the updating of the implementation timetable.
- Two (2) requests are related to the need for adjusting the title of the action.
- Four (4) requests are related to the updating of other minor details included in the Identification Fiche (implementation steps, implementing Bodies, etc.).
- Two (2) requests are related to more important modifications, concerning the content or the recall of an action.
- For three (3) actions there is no available data to further document the modification requested.

Finally, it should be noted, that the response of the implementation authorities has been immediate, since:

- Progress Report Fiches for all one hundred and twenty-nine (129) actions of the Plan where submitted through NTA's platform <https://polls.aead.gr/index.php/417125?lang=el>.
